## WHO WE ARE

# Technology partner for secure and reliable operations

Silverstone Technologies helps organisations build, protect and manage the technology environments they depend on every day. Our work covers IT infrastructure, cybersecurity, cloud platforms, networking, hardware procurement, surveillance infrastructure and ongoing support.

## Mission

To help organisations operate confidently through secure, reliable and practical technology solutions that address real operational and cyber-risk needs.

## Vision

To be a trusted technology solutions partner recognised for technical competence, solution integrity and long-term client support.

2020

## Established

Founded in 2020 with a focus on practical IT, security and support services.

IT

## Core Focus

Infrastructure, cloud, security, networking, hardware and AMC support.

04

## Approach

Understand, recommend, implement and support with accountability.

## SOLUTIONS

# Integrated technology solutions for business continuity

**01 Software & Cloud**

Microsoft, Azure, AWS, backup, collaboration, business software procurement and cloud readiness planning.

**02 Hardware & Infrastructure**

Laptops, desktops, servers, storage, UPS, peripherals and business-grade infrastructure components.

**03 Networking & Firewall**

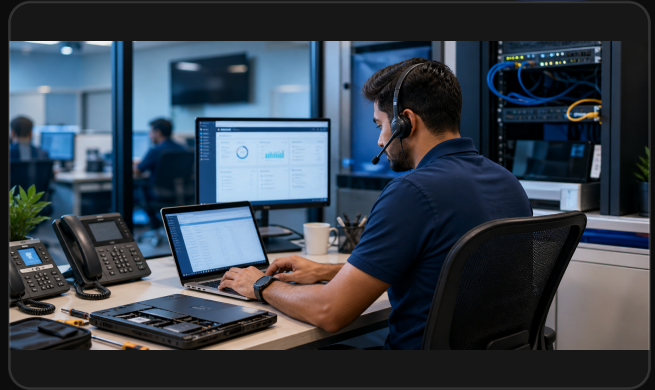

Secure wired and wireless networks, firewall deployment, VPN, branch connectivity and monitoring.

**04 Cybersecurity**

Endpoint security, firewall hardening, vulnerability remediation and security monitoring readiness.

## TECHNICAL SERVICES

# Services for secure, reliable technology operations

## OT Security

Visibility, segmentation guidance, access control review and practical remediation planning for operational technology environments.

## VAPT Services

Vulnerability assessment, penetration testing, validation, reporting and remediation guidance.

## IT Support & AMC

Endpoint, server, network and user support through structured maintenance and response plans.

## Surveillance Monitoring

Camera, NVR/DVR, storage, network readiness and remote monitoring infrastructure support.

## SECURITY CAPABILITY

# Practical cyber resilience across users, networks and systems

- Endpoint protection and EDR readiness for laptops, desktops and servers.
- Firewall policy review, secure remote access and network segmentation guidance.
- Vulnerability assessment support with prioritised remediation actions.
- Security hardening for common infrastructure, identity and access risks.
- OT security guidance for environments where uptime and safety matter.

### INDUSTRIES SERVED

# Support for offices, facilities and growing teams

01

## Corporate Offices

Workplace IT, cloud, firewall, Wi-Fi, endpoints and support.

02

## Manufacturing

OT security, plant connectivity, surveillance and endpoint control.

03

## Healthcare

Secure networking, uptime support, data protection and monitoring.

04

## Education

Campus Wi-Fi, labs, desktops, cloud collaboration and security.

05

## Retail & Warehousing

Branch connectivity, POS support, cameras, backup and remote support.

06

## SMEs

Scalable IT, licensing, cybersecurity, AMC and procurement guidance.

### HOW WE WORK

# Clear steps from requirement to support

## 1. Understand

We review business needs, current setup, users, locations, timelines and operational constraints.

## 2. Recommend

We suggest suitable technology, scope, procurement path and support approach.

## 3. Implement

We coordinate deployment readiness, configuration, migration support and documentation.

## 4. Support

We help with troubleshooting, maintenance planning, vendor coordination and future improvements.

**START A REQUIREMENT**

# Let us discuss your technology requirement

Share the number of users, site locations, current setup, required solution area and expected timeline. Our team will review your requirement and respond with the next step.

**India Office**

5 Gajanan Apartment, Near Jivansadhna Apartment, Maniyasa, Maninagar East, Ahmedabad, Gujarat - 380008, India

**USA Office**

30 N Gould St., Ste 4000, Sheridan, Wyoming 82801, USA
